# Educating global talents to make a difference

**Your future starts right here!**

Constructor University is a top-ranked English-speaking university with highest academic standards in research and teaching. Within the inspiring environment of our residential campus, our dedicated faculty and staff provide students from more than 110 nations with the best possible educational experience. Start building your future now!

# Undergraduate programs

Constructor University's high academic standards in research and teaching follow an interdisciplinary concept that connects the fields of physics, computing, lifescience, philosophy, education, architecture and arts. In on-campus programs or digital or hybrid programs: all students get access to superior knowledge and benefit from a student-centered approach of individual guidance before, during and after their student journey.

We thereby empower students to achieve their full potential and prepare for careers in global businesses, organizations, or academia. Learn from a community of professors, scientists, researchers, and industry experts. Develop digital skills, interdisciplinary know-how, and intercultural competencies to help solve the challenges of the world. Start your global journey now!

## Pre-Bachelor Semester

The Pre-Bachelor Semester (PBS) is a unique program that allows students to start their academic year in February instead of waiting until September, which lets students "test drive" the university before deciding on enrollment.

[constructor.university/pbs](https://constructor.university/pbs)

## International Foundation Year

The International Foundation Year is an optional pre-degree study program designed to provide students with the opportunity to get a taste of different fields of study and acquire academic skills to qualify for your desired undergraduate degree program.

### Top destinations for graduate studies

# Admission

Our admission process is intentionally personal. It begins with a careful, conscientious review of an applicant's qualifications by the Admissions and Scholarship Committee, comprised of faculty and admission staff, who read and evaluate the application. In addition to strong secondary school academic records and test scores, we are looking for qualities that will contribute to the diverse and stimulating learning environment here at Constructor University in which many different life experiences and world views interact.

[constructor.university/apply-undergraduate](https://constructor.university/apply-undergraduate) 

## Financing options

The university offers students personalized financing offers for tuition consisting of one or more types of financial support in the form of scholarships, and/or tuition deferral.

[constructor.university/financing-undergraduate](https://constructor.university/financing-undergraduate) 

### Scholarships

All students are automatically considered for a scholarship without an additional application. Students will be informed about their scholarship amount immediately following admission.

- Academic achievement scholarship of up to € 10,000 based on academic success

### Tuition Deferral

All admitted students are automatically offered the option of tuition deferral. The amount each student is allowed to defer is calculated upon admission.

- Repayment doesn't begin until a predefined minimum income is reached.
- A percentage of the income is paid for a limited period.
- If the income is lower than the defined minimum income level, repayment is deferred.

### How To Apply

Apply online via:  
[constructor.university/apply-undergraduate](https://constructor.university/apply-undergraduate) 

The following documents are required:

- High school / university recommendation letter (upon request)
- High school / university transcript(s) (last 2 – 3 years)
- Educational history form
- Standardized test results: SAT / ACT\*
- Proof of English language proficiency\*
- Letter of Recommendation (optional)
- Motivation Statement

\* may be required for enrollment; waiver possible in some cases
